SUMMARY

Experienced web developer with over 5 years of experience in all stages of development cycle for dynamic web projects and extensive experience in payments and educational technology sector. I am equally comfortable discussing requirements in the language of the business as I am in heads down coding sprints. I can take hard problems from conception to production, designing the big picture and sweating the details. A lively debater around the planning table and a passionate agile contributor. I understand that the team succeeds together. I also have a talent for leading technical projects, driving initiatives and keeping all the balls in the air.
